

Attention al riders

It is with deep regret I could not get the Dedication and Ribbon cutting changed from Oct. 11th. The Foundation informed me personally that it was not possible, as they are doing a groundbreaking the following week and another Dedication the week after that. So we are stuck with the Oct. 11th at 10:00 am. The Riders have been asked to do the ride with Flags like we did for the groundbreaking. If you have flags please bring them as I only have 35. **We will meet in the park off San Pedro at 9:15** to start the line up. It is a bit different than the last one so I won't get the exact til the Wednesday before.

Hope to see a great turn out as this has been along time coming.
